## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-6 and 9-23, 25 and 26 drawn to a method for collectively performing validation of credential information, classified in class 705, subclass 38.
  - II. Claims 7 and 24, drawn to a method to compensate a distributor, classified in class 705, subclass 1.
  - III. Claim 8, drawn to a method for collectively managing the payment of commissions, classified in class 705, subclass 39.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions Groups I and Group II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention Group I has separate utility such as tracking sales data from disparate formats. See MPEP § 806.05(d).
3. Inventions Groups II and Group III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention Group III has separate utility such as determining credit criteria for individuals eligible for sales commissions. See MPEP § 806.05(d).

4. Inventions Group I and Group III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention Group I has separate utility such as tracking sales data from disparate formats. See MPEP § 806.05(d).

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

6. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Groups II or III, restriction for examination purposes as indicated is proper.

7. A telephone call was made to Mr. Kent Chambers (Reg. No. 38,839) on March 8, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made. Mr. Chambers requested that the restriction requirement be sent via the mail.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

8. Applicant's Information Disclosure Statement has been received on April 22, 2002. It will be reviewed in due course.

*Conclusion*
